

XRP Top/Bottom Indicator Weekly Close Checklist

Version v1.4.4

Use at the close

The job at weekly close is not to predict. It is to compare what printed with your written playbook and verify the dashboard before taking action.

Indicator page: AZRO Systems - XRP Top/Bottom Indicator (Invite-Only)
Product / access page: AZRO Systems Gumroad
Support: support@azrosystems.com

Chart and data health

	Checklist item
☐	XRP chart is BITSTAMP:XRPUSD on 1W using regular candles.
☐	Health notices and wrong-chart / wrong-timeframe warnings are clear or understood.
☐	The Weekly Plan dashboard is visible and uses the intended plan inputs.
☐	Alerts were recreated after any script update or material input change.

Signal review

	Checklist item
☐	Any new MAJOR, RADAR, LIGHT, or RISK output was read in the correct hierarchy.
☐	A close-confirmed signal is not confused with optional context.
☐	The dashboard DO NOW / next order summary was reviewed after the weekly close.

Weekly Plan review

	Checklist item
☐	DO NOW and next-order summary were reviewed.
☐	If an exact weekly-plan alert fired, the dashboard was checked before acting.
☐	If no action printed, HOLD / no-action weeks were treated as normal.
☐	If Plan mode, Safety pace, budget, Start cash, Start XRP, or Start XRP avg cost changed, a new Start date/chapter was used.

Execution discipline

	Checklist item
☐	Position sizing remains inside the written plan.
☐	Any tax, fee, spread, exchange, or custody issue was considered before execution.
☐	Notes, action, overrides, and balances were recorded in the Weekly Strategy Tracker.

Reset for next week

	Checklist item
☐	Alerts are still live and linked to the intended chart/settings.
☐	Dashboard view is readable on the device you will use next week.
☐	No unresolved support issue is being carried forward.
What to avoid Do not change settings in the middle of a decision unless the written plan requires a real chapter reset. Do not force action when the weekly close produces no action. Do not treat optional context labels as orders.
